Regional Summit Addresses Nation's Science, Technology, Engineering, and Mathematics (STEM) Challenges Facing Traditionally Underserved Communities

BSU Hosts Regional Summit

Bowie, MD — Bowie State University (BSU) will host the area's annual Regional BDPA High School Computer Competition (HSCC) this year in conjunction with the Washington, D.C. Chapter's IT Showcase and 2009's IT Special Interest Group (SIG) advanced planning sessions for next fiscal year. Rod Edwards, Lou Shack, and Ed Yeldell, DC Chapter's HSCC Program Managers, coordinated HSCC training and summit facilities with Patriots Technology Training Center and BSU's Computer Science Department for 2008.

BDPA Youth Get a Headstart

The DC Chapter's HSCC Team are the defending Regional Champions and placed second during last year's National HSCC finals. This year's event again will prepare HSCC students for a National HSCC title they hope to capture in Atlanta this August. Dr. Jesse Bemley coordinated this year's IT Showcase which features advanced technology topics for general audiences. Other BDPA chapters from Connecticut to Virginia will participate during this month's Regional HSCC, IT Showcase, and STEM planning summit marking the conclusion of this year's [IT] INDUSTRY DAY series.

Technology Awareness Program

A COMMUNITY TECHNOLOGY DEVELOPMENT & AWARENESS PROGRAM

A community technology development & awareness program TAP provides corporate sponsors with a turnkey program that enables them to advance the value of technology to African-American, Hispanic, and Native American communities *through three programs:* La Familia Technology Awareness Week; Native American Family Technology Journey; and Black Family Technology Awareness Week. The programs are comprised of content designed for audiences from kindergarten through 12th grade and includes their parents and extended families. TAP enables companies to augment their public image among minorities by extending their outreach efforts into those communities.
