BDPA Industry Day – PART II

- *Regional HSCC Competition*
- *Regional IT Showcase*
- *BDPA Town Hall Meeting*

Bowie State University to Host 2008 BDPA Regional Meeting

June 21ST 2008 | 8 AM – 3:30 PM

IT's **Saturday, June 21, 2008 —** Bowie State University is hosting this year's Regional BDPA Meeting for members and students interested in furthering their goals and careers in information technology, communications and related technical fields in other industries.

BDPA-DC's next event following this month's regional meeting will be BDPA's National Technology Conference in Atlanta, Georgia, from August 6 to August 9, 2008. New members and prospective interns are welcome. Current BDPA members are invited to take full advantage of this month's agenda and special events, including organizational discounts toward professional and industry networking opportunities. No formal BDPA DC Chapter activities are planned for July 2008 with the exception of HSCC training and HSCC fund-raising. Local businesses are encouraged to support regional **IT** programs. Corporate and individual investments lead to greater opportunities for area youth.

For more details on these and other events, visit: www.bdpatoday.org

U.S. Senator First African-American to Claim Major Party Presidential Nomination

Information Technology—Digital Media, Social Networks, Blogs and new Internet strategies providing new pathways to the White House

bdpatoday Special Report

Photo credit: Chip Somodevilla | © Getty Images

Washington—June 3, 2008 This evening, BDPA Members witnessed an epic moment in history. A five-month primary season ended today with Senator Barack Obama capturing enough delegates from a major political party for nomination to the office of President of the United States. He is the first African-American candidate presumptively nominated to head a major party into a general election. This presidential cycle also becomes more newsworthy as it introduces unprecedented **IT** and Internet strategies while unleashing new multimedia doctrines, which may yield well over *one billion dollars* for a single campaign.

Celebrating 30 Years of Service

Serving the District of Columbia and surrounding communities for over 25 years, Joint Educational Facilities (JEF) is an all-volunteer non-profit community-based organization providing instruction, research, and development guidance to Washington, D.C. area middle and senior high school students. Topics in Advanced Computing Sciences, Contemporary Mathematics, Geographical Information Systems (GIS), High-Performance Computing (HPC), Intelligent Technologies, and Robotics are offered. Parent-Student teams are encouraged to enroll this Fall or next Winter and participate on-line via the Internet, in the lab, or during any JEF event.

Now accepting enrollments from Junior and High School students for Spring and Summer 2008 sessions. For more information, call (202) 584-1898 to register as a student. Instructor-mentor, parent-student teams, JEF scholarships and internships with JEF also are available.

Harnessing Emerging Technology to Advance IT Careers

A 2008 National BDPA Technology Conference

Professional workshop forums are presented this year during the conference days of Wednesday, August 6th through Friday, August 8th. IT professionals seeking to build IT skills, define career directions, and climb the IT corporate ladder attend the National BDPA Conference. The purpose of the adult workshop forum is to support these goals by providing IT specific workshops in leadership, professional and business development, research, project management, communications, certification, and a host of advanced technologies that will provide a challenging learning experience for attendees.

Focus Areas include...

LEADERSHIP
PROJECT MANAGEMENT
TECHNICAL SKILLS
IT ENTREPRENEURSHIP
PROFESSIONAL

The Audience

The primary conference audience consists of multiple levels of IT professionals, from entry-level technologists to senior level managers and corporate executives. Entrepreneurs, educators, and college students also will be in attendance. Workshop content and instruction should be geared to a level that is appropriate for your target audience.

Criteria

Proposals were solicited for 90-minute presentations that are interactive, creative, dynamic, and feature best practices in IT. Each presentation will provide a challenging IT learning experience. Presentation submission deadlines apply.

www.bdpa.org

BDPA *ATLANTA* – 2008 Host Chapter

National BDPA is reaching out to industry experts, professionals and dynamic presenters to share their knowledge and expertise in information technology or communications through interactive workshops to be held during our 30th Annual BDPA Technology Conference in Atlanta, Georgia from August 6 to August 9, 2008. Presentations shall be made to either students (high school through college) or adults (professionals and technicians) during the conference. Sponsors, Presenters and Volunteers all contribute toward very successful annual technology conferences. For more information, contact BDPA at: 1.800.727.2372 (BDPA)

bdpa career center now available online

BDPA's career center has an updated resume databank to post resumes and career vitaes for exposure to the best companies in the world for Information Communication Technology (ICT) positions at all levels. We have an excellent search facility in the form of a Job Bank that allows one to search for the perfect position for matching a specific skill set.

Your career center has support services from career coaches that will assist users in getting careers back on track or reaching the next levels of advancement. These support services also extend to salary surveys thus allowing users to see how competitive a salary is in relation to other parts of the country and to other ICT positions. These services allow users to view the emerging positions within related industries and connect with resources for a full job outlook.

This career center also supports ICT college students with a Student Internship Program to include resources to assist first-time workforce entrants in securing desired college internships over the summer or any time during the course of a school year. BDPA should be one of the first stops in fulfilling all of your career goals and meeting ICT professionals in every industry sector.

Our next opportunity to network and interface with business leaders and hiring managers supporting BDPA in Washington, D.C., is **May 22, 2008** in the Rennie Forum auditorium, Prince George's Community College before and after the Chapter's Program Meeting. More information is available by visiting "**Events**" online: **www.bdpa-dc.org**.

SUPERCOMPUTING 2008 CONFERENCE PREVIEW

SC08 Broader Engagement (BE) Program

SC08 is committed to broadening participation in the conference and to the engagement of individuals from around the globe, in groups and disciplines that traditionally have been underrepresented in high performance computing or at the SC Conference series. The breadth and depth of SC08 will provide unparalleled opportunities for learning about innovations in high performance computing, networking, storage and analysis. The Broader Engagement (BE) Program strives to identify and involve those individuals from underrepresented communities who have an interest in high performance computing.

Mentorship Programs

The mentorship program that started last year at SC07 will continue at SC08. In close collaboration with the Education Program, student volunteers and SC exhibitors, BE is endeavoring to grow its mentorship program. The program plans to continue the formation of mentor/protégé pairs, and develop informal opportunities through coffee or lunch meetings with scientists and industry leaders to encourage networking bridges that benefit the participants involved in the program and hopefully beyond. JEF and BDPA-DC have additional information for local teams. Visit: **www.bdpa-dc.org**

bdpa@sc08

Support Teams are forming for this year's high school and college student participation during featured technology expos, IT conferences, IT Showcase and BDPA HSCC events. Parents and sponsors are invited to participate and assist area students with research concepts and development projects. Contact the JEF Center at: **202.584.1898**

An A+ For Helping Hands with Technical Career$

Educational institutions, training companies, not-for-profits such as BDPA and government-funded training organizations can improve services to constituencies by joining CompTIA.

IT Career Upgrades

CompTIA is the leading association representing the international technology community. Its goal is to provide a unified voice, global advocacy and leadership, and to advance industry growth through standards, professional competence, education and business solutions.

BDPA-DC will work with CompTIA in 2008 to make certification testing more accessible with sponsored and discounted student vouchers. This upgraded member service allows BDPA members to keep their own skill sets current with industry requirements. Advanced training and free vouchers for additional CompTIA certifications will be made available for BDPA student and full members.

CompTIA Exam Vouchers for BDPA Instructors

Qualified BDPA members of E2C member schools who are training students in any of CompTIA's current certifications are eligible to receive a voucher for one of the following CompTIA certifications: **A+**, **Network+**, **i-Net+**, **Server+**, **Linux+**, **HTI+**, **RFID+**, **Security+ and Project+**.

Obtaining a CompTIA certification adds to personal credentials and paves the way to more lucrative and challenging leadership positions. Top technology companies like Cisco, HP, IBM, Intel, Microsoft and Novell leverage CompTIA certifications as electives or equivalents for their own certification tracks. BDPA members who achieve higher industry certifications with DoD security clearances attract growth industries to emerging communities, transfer knowledge to local schools while promoting economic development.

NATIONAL SECURITY AGENCY

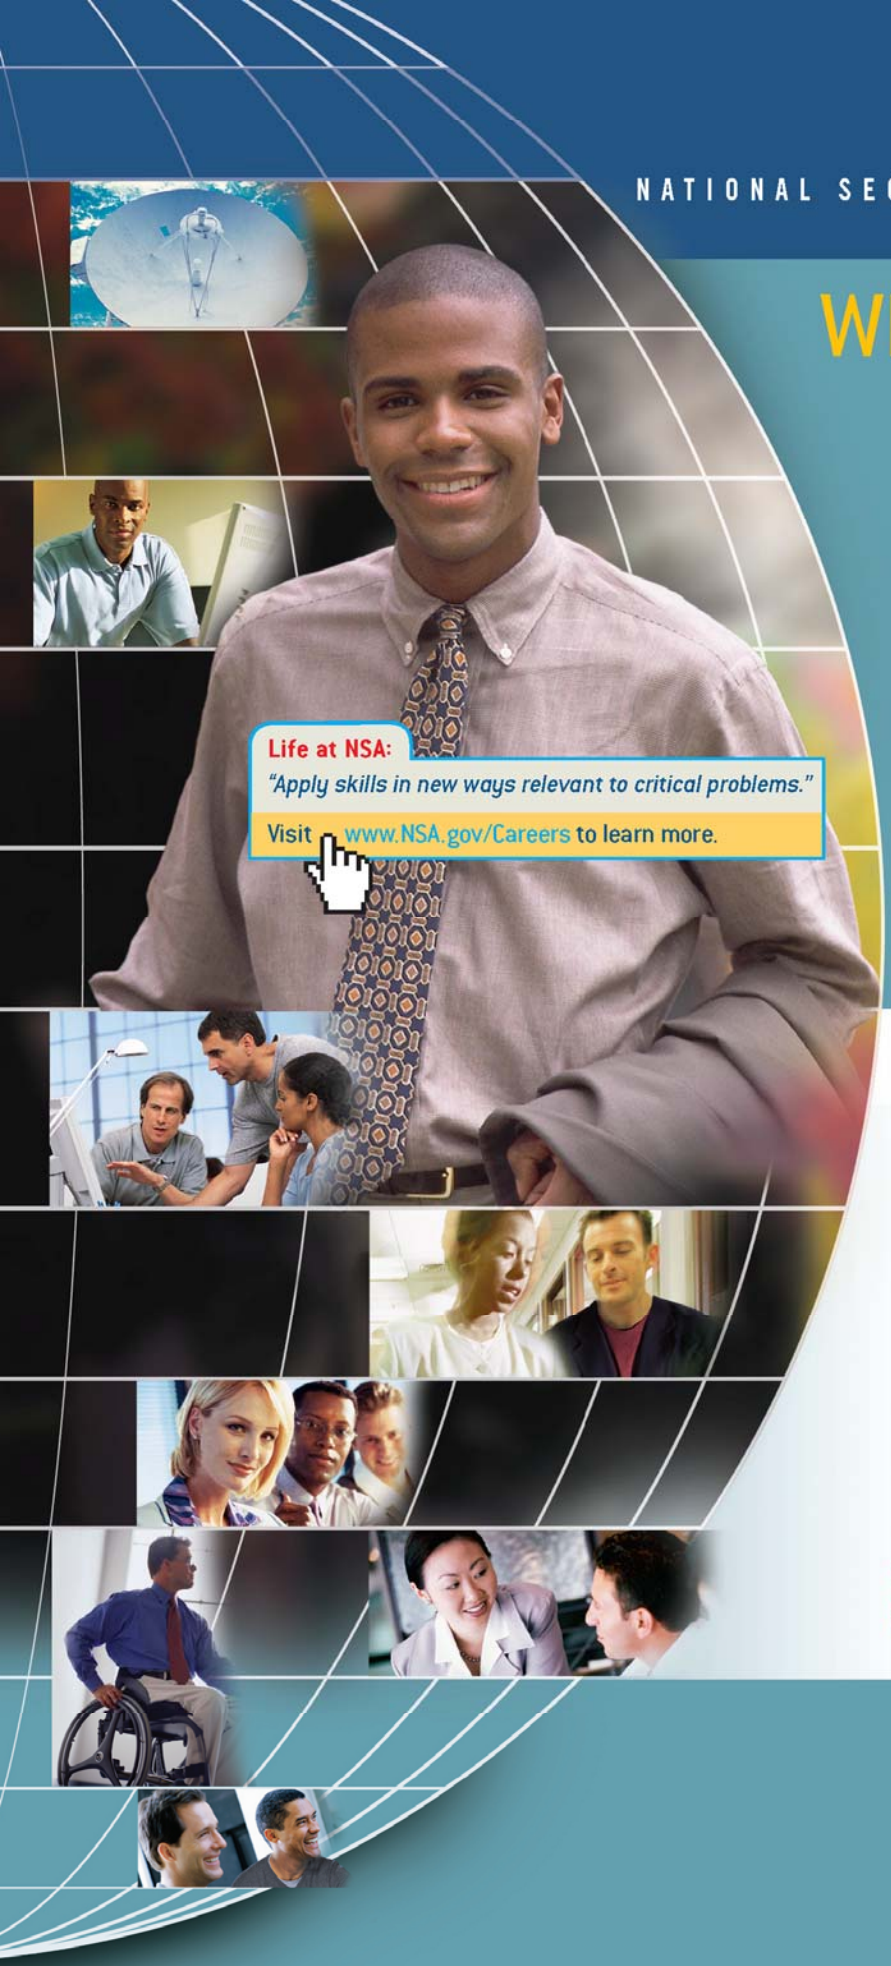
NSA

Where Intelligence Goes to Work

It's about solving the toughest challenges. Taking the path never traveled. Using your intelligence and imagination to impact the world.

NSA is looking for intelligent and imaginative people to produce foreign intelligence information and protect U.S. information systems.

If you're ready to give your intelligence some competition, join NSA, where the top intelligence really matters.



Career Opportunities:

- Computer/Electrical Engineering
- Computer Science
- Mathematics
- Foreign Language
- Intelligence Analysis
- Cryptanalysis
- Signals Analysis

For more information and to apply online, visit our Web site.

U.S. citizenship is required. NSA is an equal opportunity employer. All applicants for employment are considered without regard to race, color, religion, sex, national origin, age, marital status, disability, sexual orientation, or status as a parent.

SECURING TOMORROW TODAY

TeraGrid 2008 Conference

The TeraGrid is an open scientific discovery infrastructure combining leadership class resources at eleven partner sites to create an integrated, persistent computational resource. Using high-performance network connections, the TeraGrid integrates high-performance computers, data resources and tools, and high-end experimental facilities around the country. How soon your community benefits from these resources directly depends on stakeholder levels of involvement.

TeraGrid '08
June 9-13, 2008

Riviera Hotel
Las Vegas, Nevada

Launch a ***TeraGrid* SIG** (Special Interest Group) within your BDPA Chapter.

Call us today or join us on **June 21, 2008** at Bowie State University during the regional **IT Showcase** and **Industry Day – Part II**.

1.800.727.BDPA
www.bdpa-dc.org

Currently, TeraGrid resources include nearly a petaflop of computing capability and more than 30 petabytes of online and archival data storage, with rapid access and retrieval over high-performance networks. Researchers can also access more than 100 scientific data collections. With this combination of resources, the TeraGrid is the world's largest, most comprehensive distributed cyberinfrastructure for open scientific research. TeraGrid provides resources at eleven partner institutions: Indiana University (IU), Louisiana Optical National Center for Atmospheric Research, National Center for Supercomputing Applications (NCSA), National Institute for Computational Sciences, Oak Ridge National Laboratory (ORNL), Pittsburgh Supercomputing Center (PSC), Purdue University (PU), San Diego Supercomputer Center (SDSC), Texas Advanced Computing Center (TACC), and University of Chicago/Argonne National Laboratory (ANL/UC).

HSCC $cholarship$

Washington—This year, BDPA's national High School Computer Competition (HSCC) will be held in Atlanta, Georgia during the **National BDPA Technology Conference, August 6-9, 2008**. Final competition teams selected to represent Washington, DC and Northern Virginia will be made up of three to five students each. However, the other students will be eligible to participate in BDPA's annual Youth Technology Camp (YTC). The competition team also will enjoy an all expenses paid trip to the National Conference. All students will be allowed to participate in the Student Youth Technology Camp and all other planned student activities. The competition team will compete with other BDPA chapter teams throughout the United States developing web applications, mastering computer theory, conducting oral presentations and publishing their team's deliverables during written competition. The top five teams will win college scholarships, computer hardware and software. NBDPA may extend scholarship awards to the top six teams in 2008. BDPA student members and HSCC students will be afforded an opportunity to participate or attend this year's TeraGrid Conference and Supercomputing 2008 (SC08) Expo later this year. Student memberships also are available to area students at a very nominal annual fee of only $15 for full time high school, community college, vocational school, 4-year college or university attendees. Join a local BDPA Chapter or start a small Chapter Interest Group (CIG) within your school today. Bowie State University will host this year's **BDPA Regional HSCC** and **IT Showcase**, on **Saturday, June 21st**.

FCC Seeks Your Organization's Input On A New Auction For Public Safety Spectrum

The Federal Communications Commission (FCC) has placed more options back on the table for a new auction of broadband licenses of 700 megahertz spectrum set aside for a public safety network and is seeking public comment on this process. FCC recently held an auction for radio frequency spectrum in the 700 MHz band that will be abandoned by television broadcasters next year when they make the federally mandated switch from analog to digital signals. The auction included creation of a 10 MHz license in the D Block to be part of a public/private partnership with the adjacent 10 MHz of spectrum dedicated to a Public Safety Broadband License. FCC stated in announcing its new notice of this proposed rulemaking, "The 700 MHz public/private partnership was designed to achieve the important public policy goal of promoting public safety interoperability, allowing police, fire and other first responders to better communicate with one another in times of emergency." Earlier this fiscal year, bids for the spectrum fell far short of the $1.3 billion minimum, and no license was awarded. FCC now must decide on new rules for an auction. The original auction and license requirements have been criticized by Congress and industry as being too expensive and stringent for an economically risky partnership. The commission is reconsidering all auction rules and potential uses for the spectrum in enabling the desired network. Suggestions from industry and Congress for the new auction include multiple regional licenses rather than a single national license, reducing or eliminating the reserve price, and selling off the spectrum for commercial use and using the proceeds to fund creation of an interoperable network. One thing that everyone has agreed on thus far is that in any public/private partnership for this network, details of the partnership should be spelled out in advance of an auction. This FCC notice asks whether a public/private partnership is in the public interest and seeks comment on possible changes to the current rules governing such partnerships, such as whether to limit use of the shared network to public safety services as defined in the Communications Act. The full text of this notice and additional FCC information can be found on the Commission's website at: **http://www.fcc.gov**

…Comments also are sought on the technical requirements of this shared wireless broadband network...

06.21.08 – Growing *IT* Special Interest Groups

This month during the BDPA's Regional Meeting at Bowie State University, new BDPA members and community leaders will continue to develop industry-specific Special Interest Groups (SIGs) and neighborhood Chapter Interest Groups (CIGs) to expand committee services and chapter programs to emerging communities within our region.

New SIGs should include growth areas such as Standards, High Performance Computing, Modeling & Simulation, Intelligent Transportation Systems, Robotics (Unmanned Vehicle) software, Serious Games (beyond Xbox, Wii, and PSP), or Web 2.0 technologies.

New BDPA CIGs also are forming within the region to provide services to Anne Arundel, Charles, Howard, Montgomery, and Prince George's Counties in Maryland. To schedule a BDPA CIG event near you, visit our website at www.bdpa-dc.org meetings and contact information.

Regional High School Teams Prepare For Nationals

Bowie State University is hosting this year's BDPA Regional **High School Computer Competition**, **IT Showcase**, and **Industry Day** this month on Saturday, June 21st. Teams from Baltimore, Detroit, Hartford, Philadelphia, Northern New Jersey, New York, Northern Delaware, Northern Virginia, and Richmond BDPA Chapters are slated to challenge four (4) area HSCC teams for the opportunity to compete nationally in Atlanta. For sponsorship and registration information, visit: **www.bdpa-dc.org** or **www.bdpatoday.org** .

live. work. display well

Display Well Everywhere

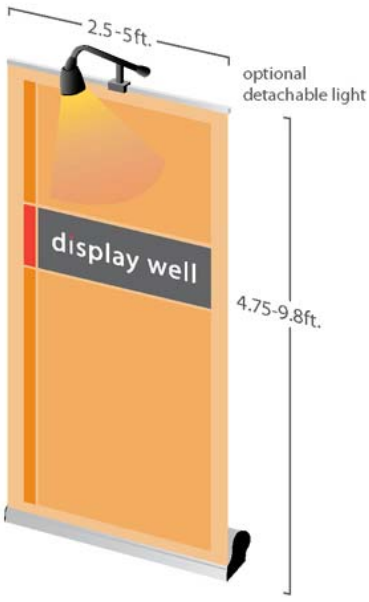
Multi-purpose, Portable Signs and Exhibits for Lobbies, Meeting Rooms, Retail Stores, Kiosks, Seminars, Conferences, Tradeshows, Presentations, Expos, Events and More!

Who We Are

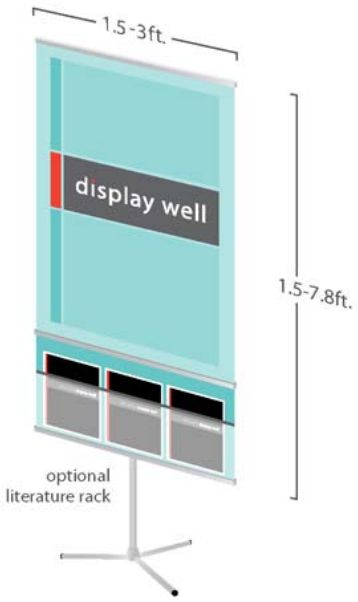
Display Well is a full service display production company that specializes in custom-designed, mobile exhibits and signs that set up in seconds and are easy to transport. We create, print and produce professional, high-quality displays in one stop. Our stunning displays capture your audience, highlight your communications, promote your programs, advertise your services, showcase your products and make a profound impact.

What We Offer

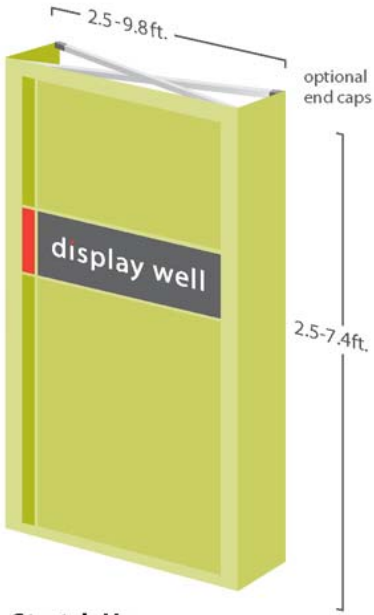
We offer three sleek and stylish models: the Roll up, Stand up and Stretch up. All are lightweight and freestanding and come with a compact carrying bag so you can conveniently and quickly display well anywhere. Our displays are made with heavy-use, durable materials and are printed with first-class technology. Our graphics are creative and eye-catching, and our messages are moving and powerful. The result is a complete display that effectively conveys your brand, vision and purpose.



Roll Up
A retractable banner stand with single or double-sided inter-changeable graphics



Stand Up
A versatile sign mounted to a tripod telescopic pole with adjustable heights



Stretch Up
A flexible all-in-one pop-up frame with a stretch tension fabric in various sizes

Why Choose Us

We've streamlined the process of developing displays from concept to delivery. We make it easy for you, by managing all the details so you don't have to waste time and money coordinating various vendors. We're the best and fastest way to display well.
